Assessor Comments	A great opportunity to purchase a very good line of well bred Poll merino ewes. Note the age of these ewes being July/August 2019 drop. Already large frame, plain body ewes that will continue to grow into Highly fertile, stylish wool growing ewes. The vendor has been purchasing Mernowie bloodline sires for more than 20 years and his flock is classed by Mernowie stud master. The bottom 5% of this line of ewes were removed. There is 1 ewe within this line for sale with horns and 2 ewes with a small black wool dot on one ear. Ewes will continue to graze on barley stubbles until loading and will gain weight between sale and delivery. It is my opinion that the purchaser will not be disappointed with their purchase of these ewes.
